Identify what families notice	**Communicate clearly**	**Understand systems**	**Develop recommendations**	**Track what follows**
Observation -> inquiry	A 60-second statement	A verified decision map	A specific action request	Response + report-back plan

The academy does not end with attending a meeting.

Participants practice turning an observation into a decision-ready recommendation - then learn how to request an institutional response. REO helps mobilize resources after actions are agreed upon.
